SNOWSPORT CLUB

Mt. High Highway Cleanup

June 19. Saturday, 10 am - noon.

Our club has adopted a 2-mile section of Highway 26, mileposts 51-53. This was our first clenaup effort. Fourteen of us met at the west end of Skibowl's parking lot, adorned ourselves with reflective orange vests, grabbed some plastic bags and picker clamps, and split up into several small groups.

Two hours later, we had filled up 33 large garbage bags with plastic bottles, cans, cigarette butts, empty plastic bags, rusted tire-chains, soaked car floor mats, etc.

After the cleanup, we cleaned ourselves up and stopped at the Mt. Hood Brew Pub for some delicious lunch. We compared notes about what people had found.

Among the more interesting finds:

a) Violet found a \$20 bill, soggy but still valid.

b) Chuck found a woman's purse, filled with ID cards.

Debbi Kor took the purse home and tried to locate its owner. The lady was not listed in the phone book. A dental appointment card in the purse gave Debbi the idea to call the dentist. The dental office would not give out any information, but they did have records of that appointment some 6 years ago, so they contacted the lady and gave her Debbi's phone number.

Later that same day, Debbi got a phone call from the mother of the young lady who lost her purse. It turns out that the young lady was 17 when she and several of her girlfriends had their purses stolen while they were snowboarding at Mt. Hood Meadows some 6 years ago. It is amazing the purse still looked as good as it did after 6 years, and that it finally made its way back to its owner.

We have committed to do this highway clenaup twice a year. So, we'll do it again in September or October. Now that we've removed years of accumulated trash, next time should be much easier.

14 participants: Lonny Schiller, Jim Karsten, Violet & Greg Anderson, Kurt Krueger, Chuck Westergren, Terry White, Debbi Kor, Gordon Lusk, Cal Eddy, Larry Bennett, Sandra Pointer, Sandi Dykstra, Emilio Trampuz

Something to Do on a Rainy Day by Bruce Ellison

Photos by Bruce McGavin

The alarm clock rang at 5:30 am. It had been raining for weeks. I knew it wasn't going to be a good day, but my friend John Geller had rented randonee gear the day before so we were committed. It rained all the way to the access road ... and then the sun came out. Miracles do happen!

We decided to skin up* to Superbowl and Wy'East. We were surprised to happen upon Bruce McGavin and Mike Ferrell in the parking area. All but Bruce

were equipped with Randonee climbing skis, but Bruce likes to carry his skis on his back so he can use his own Alpine equipment to ski down. We knew we were going to sweat on the climb, so we

took a big drink before we started and carried about two liters of water each. John and I brought our avalanche beacons, shovels, and probes.

The night had been cold, so the snow was hard and we made good progress up to the 7,000 foot level. John and I traversed to the White River Glacier while Bruce and Mike took the ridge. At the top of the dam on the glacier at 8,500 feet we ate lunch

and admired the view. How lucky we were to be able to spend a Saturday up here in the clouds. We proceeded up Wy'East to the rocks until it got too solid to proceed without crampons, and stopped. It's a little tricky on Wy'East because it's quite steep and you definitely don't want to drop a ski or a pole. This day there was a breakable crust on top to boot. We dug a platform with our shovels. At that point we saw Bruce and Mike coming up the ridge. I knew Bruce was a skiing connoisseur so I watched carefully to see where he went. We worked our way down the breakable crust to the corn below where Bruce and Mike were headed.

It got better as we skied down ... a reward for our hard work.

Mike Ferrell (in front), Bruce McGavin, John Geller

Good untracked corn snow can be just as nice as powder ... and was! With 5,000 feet of vertical we had plenty of time to get into a rhythm. So many choices as to where to go. We favored the ridge on skier's right for awhile, and then crossed over to the left at the White River Glacier Dam. All agreed this was a spectacular day.

Sweaty and tired, we skied through the glue in the lower part of the ski area back to our cars.

Looking back at our route we all knew it was worth the extra effort to get up early that morning for this very special hike and ski day!

* Skinning up means to put "skins" on the bottom of your skis, for uphill travel. They are not real skins; more like a thin rug, with an adhesive to stick to the ski, and bristles pointed toward the ski tails to prevent sliding backward.

In Memoriam

SNOWSPORT CLUB

A Legend Has Passed Away - by Gordon Lusk

Charlie Sperr died in his sleep, June 19, 2010, at age 86. The photo is from a video recorded during one of our rafting trips in Maupin, a couple of years ago. He sings "Jada" (aka "the boobies song"). The video is posted on YouTube at: <u>www.youtube.com/watch?v=xbpJ4XkUbpw</u> For all of you that hung around Government Camp I am sure you new and loved **Charlie Sperr**, owner/operator of CHARLIES BAR AND GRILL. My dear friend for the last 30+ years is gone. I have so many memories of Charlie I can't begin to tell them all.

Charlie lived for winter/skiing, going to Hawaii in the spring and Munich Germany for October Fest in the fall. Most of you know our Raft Trip in August; well it goes back a lot farther than that. With SVSC Charlie and I rafted together every year for over 18+ years. He loved the interaction with all of the people especially the ladies. He may have been old but not blind. For these of you that were lucky enough to hear Charlie sing his mountain songs it was like sitting in a live museum. In the old days all water fighting was done with buckets, Charlie was the first one to show up with water guns to fight. He was the best and defended me a lot while I rowed the raft.

I am sure his legend will live on in Charlie's and the many events that go on there all year long. Pray-For-Snow, King-Winter, Etc. In all the years and elbow bending Charlie and I have done I never heard a cross or negative word from him. He loved life and everyone in it. His "go-for-it" attitude and drive was prevalent right up to the end. Charlie will be missed sitting there at the end of the bar in his original Timberline Mile chair.

Good by Charlie; from your dear friend Gordy Lusk

Safety: Be Strong; Ski better; Live Long

Many of us tend to get sluggish during the summer. We lose our "ski legs", we gain a few pounds. Here's a simple way to counter that, suggested by **Colleen Walter**, who has recently managed to shed quite a few pounds and became one of our fastest PACRAT racers. She says:

Now is the time to get into shape for next year's ski season! Come on...you are feeling it...thighs burn a little earlier in the day, more rest stops on each run...come on! Just start out with a **15 minute walk**. Walk right up your street for 15 minutes, turn around

and walk back. Hey, that's a 1/2 hour walk...easy!

Do that for a couple weeks, then do it faster or go a little farther! Now it's in your daily routine...easy! You'll be ready in no time at all. You **WILL** ski faster, last longer and look damn good too! Get moving!

SNOWSPORT

Our web site, <u>www.mthigh.org</u>, has been reorganized and improved. The changes announced last month have been implemented.
