We will start our trip in the vibrant mountain town of Nelson, British Columbia. We will stay 3 nights in traditional hotel rooms with TWO people per room. Rooms have QQ bedding. There is a restaurant onsite and we are located on the edge of downtown within walking distance to shops and restaurants. We will ski Whitewater Ski Resort, less than a 25-minute drive from town, on Thursday and Friday. On Saturday, a surprise awaits us on our travel day to Rossland, British Columbia. Once we arrive at Red Mountain, we will stay ON MOUNTAIN at the Josie hotel for 4 nights. All hotel rooms will be QQ set up with TWO people per room. There is a restaurant and bar onsite and the town of Rossland is a quick 5-minute shuttle ride away. In addition, for a fee there is an onsite spa and 2 slope side saunas to enjoy during our visit!!

Whitewater Resort is located in the Selkirk Mountains and typically receives over 40 feet of powder!! Whitewater boasts over 2300 acres, 82 runs and 2044 feet of vertical. The trail break-down is about 11% double black, 47% black, 34% blue and 10% green. Whitewater also offers Nordic trails for cross country skiing, snow-shoeing and fat biking. Please note that Whitewater is off the grid. That means no cell service and no WIFI while at the resort. You are there to ski anyway!!

Red Mountain Resort is located 5 minutes from the town of Rossland in the Monashee Mountains. It has 8 lifts, 119 runs, 3850 skiable acres with 2900 feet of vertical. Red receives over 300 inches of snowfall on average and has three separate peaks to enjoy. Trail break-down is about 26 % expert, 23% advanced, 34% intermediate and 17% beginner so there is something for everyone.
