## Ski Washington Challenge

David Schor at Mt. Baker

With about 100 ski areas within a day's drive from Portland, if you visit only one per year, it would take you 100 years to visit them all. You will never see them all that way!

But, you can drive and visit 2 of them each weekend. Start with your own State. Or a neighboring State.

**David Schor** has already completed the goal of skiing at least 10 of Washington's ski areas. Read David's blog at: <http://skiwashington.blogspot.com>.

People asked him how he can afford to take so much time off of work. "I did it on weekends only," said David. Not only that, but with the exception of one or two places where he was able to stay at a friend's place, he mostly slept in his car. Now that's real passion!

David was so quick at it that he completed the Challenge even before the calendar Winter officially started.

Meanwhile **Bob Voss** already visited 3 Washington ski areas, **Mt. Baker**, **49° North** and **Mt. Spokane**. He did this with Emilio, on the way to and from Canada.

Emilio later went on to visit some of **Hurricane Ridge**, and **Leavenworth Ski Hill**, where the main mode of uphill transportation are rope tows. Yes, folks, that gives you a taste of the "good old days". That's how alpine skiing started. Even Mammoth Mountain started as nothing more than one or two rope tows.

See more about Washington ski areas at: [www.mthigh.org/Articles/Ski-Washington-Challenge-diary.pdf](http://www.mthigh.org/Articles/Ski-Washington-Challenge-diary.pdf)

## Why Wax? - by Tognar Toolworks

Why Wax Your Ski or Snowboard?

Back in the early days when all skis had **wood** bases, skiers had little choice but to wax 'em regularly if they

wanted to slide on snow. But along with the introduction of **polyethylene bases** (p-tex) came the assumption that skis no longer needed waxing. Wrong!

**P-tex** is a thirsty plastic that needs frequent wax feedings. But, due to the mis-conception that it doesn't need wax, in no time at all, the number of skiers who waxed their skis flip-flopped from 97% who did, to 97% who didn't. And that's pretty much where it remains today. Amazingly, only 3-4% of skiers or snowboarders bother to wax their equipment. The performance these folks lose because of this misunderstanding is significant...a waxed base is about 30% easier to turn, more durable and faster than an unwaxed base.

Ski and snowboard bases can easily lose their ability to absorb wax efficiently. The most common cause is simply neglecting to wax regularly. The high friction of snow acts like sandpaper to abrade the ski or snowboard base, wear off wax and leave the p-tex dried out. Another cause is too much heat created by a poor stonegrinding, the use of excessive speed or pressure when rotobrushing, or, most commonly, from an improperly used or uncalibrated wax iron. About half the surface area of most sintered racing bases will absorb wax when new...these are called "amorphous" regions. Excess heat converts these to "crystalline" regions, which do not absorb wax. Furthermore, heating the ski or snowboard base can increase its oxidation by atmospheric oxygen. Overheating a base also dries it out and results in the creation of more unwanted, drag-inducing p-tex hairs.

NOTE: The above article is a partial extract from the **Tognar Toolworks** web site, [www.tognar.com](http://www.tognar.com).

We found Tognar offers great prices on waxing and tuning gear. A set of World Cup Ski & Snowboard vises costs only \$99.95, as compared to about \$129 at many other stores. It also sells powder cords, skigees, and more. Imagine our surprise when we also found out that Tognar is located in Oregon! Address: **Tognar Toolworks**, P.O. Box 1453, Phoenix, OR 97535. ## Ski Oregon / Washington Challenge

Winter 2006/2007.

NWSCC

The NWSCC, in cooperation with the local ski industry is expanding its ski challenge to the State of Washington.

Washington has 14 ski areas. To meet the Challenge, you will need to ski/ride at least 10 of these in a single winter season. Extra credit will be given for the 4 optional ski areas: Hurricane Ridge, Leavenworth, North Cascade Heli-Skiing and Cascade Powder Cats.

It helps that the Mt. High club has a trip to 2 of these ski areas: Mission Ridge and Stevens Pass. Also, we'll hit a few on the way to Canada.

The **Ski Oregon Challenge** will continue too! Ski 9 of 11 Oregon areas.

These two are separate challenges. You don't need to do both.

More info on our web site, and the [NWskiers.com](http://NWskiers.com) web site. Contact **Steve Coxen**, 503-679-9022, email: [sacoxen@aol.com](mailto:sacoxen@aol.com).

## Mt. High Sunny Southern Oregon ski safari

Feb. 23 - 25, 2007.

This year has not been kind to Warner Canyon. Not much snow. Too close to Sunny California! So, we have had to postpone this trip twice.

Warner Canyon

But, it will be a fun 3-day weekend:

**Thursday evening**, after work, drive to Ashland (Oregon).

**Friday**: Ski Mt. Ashland, then drive to Lakeview.

**Saturday**: Ski Warner Canyon, then drive to Eugene.

**Sunday**: Ski Hoodoo, then drive home.

We'll play it by ear. It's totally informal; not an official "trip", but a simple road trip, either carpooling or caravanning down there. About a dozen people are interested.

If you are interested, please contact **Emilio**, [info@mthigh.org](mailto:info@mthigh.org) 503-378-0171. We need to start planning how we will carpool.

\* **Exception:** This year, the 5th race will exceptionally be held on **Saturday, March 31, 2007**, at Mt. Bachelor, because it will be combined with the Far West Championships. Most other years, the 5th race will be held on the 1st Sunday in April, at **Mt. Hood Meadows**.

The final and most accurate dates will always be posted on the PACRAT web site at:

[www.pacrats.org](http://www.pacrats.org).

## Third race: Ski Bowl -- Mt. High hosts party

**Feb. 18 (Sun.)** Brief team-captain's meeting at 8:45am. Race starts at 10 am, most probably on Dog Leg, visible from the lodge and from the first chairlift ride.

The party starts around 3:30 pm, at the Mt. Hood Museum in Government Camp, across the street and slightly uphill of Huckleberry Inn.

This time, it is our club's turn to help serve the food and drinks. Volunteers are needed to help with this. Please contact Jaxine Harris or Gary Stevenson.

You are encouraged to bring something home-baked for dessert (cookies, brownies, apple-crisp, or ???).

Our web site [Racing](#) page has a lot of information about our races. Also, check out the PACRAT web site before every race: [www.pacrats.org](http://www.pacrats.org).

## PACRAT Racing photos needed!

If you have any photos of racers, either in action or socially, or photos of PACRAT parties, preferably this season's photos, please email them to: [pacratphotos@comcast.net](mailto:pacratphotos@comcast.net).

Any format is OK. Preferably JPG, and no larger than 3 or 4 MB. Even older PACRAT photos are OK, but please make it clear that they are older photos.

We'll use the photos for a slide-show at the party.

## Mt. Hood Meadows stresses Safety

As a result of the recent accident on January 5th, 2007, when skier Geoffrey Bradeen was in a collision with a snowboarder, which resulted in his passing, Mt. Hood Meadows is implementing more stringent safety rules, especially related to reckless, fast skiing. The ski area manager, **Dave Riley**, says in his recent blog:

“We implemented a new program this year called “**Are You Aware**”. It consists of a large investment in signage to communicate the appropriate messages to the entire guest population at the resort. Additionally, this program (which

Ms. Toney developed last fall and I support fully) calls for **aggressively confiscating lift tickets and season passes**. More tickets and passes have been confiscated already this year than any entire season in our history.

“We have three groups of people focused on this: the **MHM Professional Patrol Department**, the **Mt. Hood Volunteer Ski Patrol staff**, and the **Safety Hosts**.

“Once a ticket or pass is taken, the “**Are You Aware**” program requires the individual to attend a **safety class** which we present almost every day now at the resort. It includes a safety discussion by a pro patrol leader and everyone has to watch a DVD which Vail created. The DVD is very compelling and covers gruesome examples of accidents from skiing/riding too fast, two person collisions, running into fixed objects like trees, and deaths from skiing out-of-bounds.

“**Season pass holders** have their passes confiscated for at least **one week** (longer based on circumstances and/or attitude). Also, in order to get the season pass back, in addition to attending the safety class, the person must have five people sign a form which we provide which says they have been educated on Your Responsibility Code.”

## Turning Skills -- Vision of Skiing in the 21st Century

Safety

Building up on the idea of a new vision for skiing in the 21st century, started in the July/August 2005 issue of “Lift Lines”, resorts could make the slopes **safer** by providing more opportunities for us to practice **controlled turning**, by simply setting up a variety of **fun obstacles** on the slopes. This would not only make the slopes more **fun**, but would also **slow traffic down**, make the slopes **safer**, and lift lines **shorter**.

Urge ski areas to implement this idea, in any of a number of ways. Here's just one of them:

### Use whisker gates

Whisker gates can be used in place of traffic cones, in a **fun obstacle maze** (not necessarily a race course).

They can also be used in place of gates for a **simple race-training course**.

These whisker gates can be skied over with no damage to the skis or the gates.

For more info on whisker gates, see:

<http://store.worldcupsupply.com/spm-whisker-gates.html>.

Change in Membership rules

At our latest Board meeting, it has been decided that our membership season will run from October 1 - September 30, to coincide with the membership year that both FWSA and the NWSCC use. In fact, your membership card says it expires on September 30th.

It was also decided that new members who wish to join the club after April 30 (after the end of the season), and before Sept. 30, will be asked to pay a lower membership fee of only \$10 for the remaining part of the membership year.

Everyone will be expected to renew their membership after October 1.

Whereas the Mountain High Snowsport Club ("Club") is an organization of fun loving ADULTS whose events are organized by members who volunteer their efforts for the enjoyment of their fellow members and friends, please remember when I participate in Club events I do so at my own risk. Sporting activities, indeed, any activity, includes inherent risks. I will evaluate my own abilities and responsibilities and join in the Club fun as a responsible and considerate adult. I will not hold the Club or any Club officer liable for the consequences of my decisions and my behavior. The bottom line is, stuff just happens sometimes and the club volunteers are not to be blamed for helping us have fun. Besides, the Club has no assets, except for a leftover banner, some balloons, or a couple of empty beer bottles with the Club's name on them.

**Walt Reaches the Magic Milestone!**

Walt Stanton has been our club member for as long as we can remember.

This season, he has finally reached that pinnacle of a skier's life when lift tickets become free, or a heavily discounted. Walt happily skied for free for the first time at Timberline, this January. Happy belated birthday, Walt!

We are proud of you, and want to walk in your steps, i.e. ski in your tracks, and ski our heart out, just like like you!

**MT. HOOD SKIBOWL DISCOUNT LIFT TICKETS:**

All club members get a discount on lift tickets. \$29.00 will get you an open to close ticket (day/night). Just show your **FWSA/NWSCC ID card** at any ticket window at the mountain. One exception date: Sunday, Feb. 18, 2007 is \$38.00.
