About Croatia

The Croatian national territory totals 21,851 square miles with 31,479 and 12,154 square miles of coastal waters for sailing, swimming and diving.

Croatia occupies the largest area of the eastern coast of the Adriatic Sea which, as a part of the Mediterranean Sea, penetrates deep into the European continent. The narrow Dinara Mountain Range separates the country's Mediterranean region from its central European continental section, which spans from the easterly edges of the Alps in the north west to the shores of the Danube in the East, encompassing the southern part of the fertile Pannonian lowlands.

And if the beauty of such landscapes weren't enough, here's a refreshing piece of news: tap water is drinkable across all of Croatia.

Climate

Croatia enjoys three different climates: The coast has a pleasant Mediterranean climate with a high number of days of sunshine per year. Summers are hot and dry, and winters are mild and wet. Temperatures drop slightly as you move inland, where the climate is continental and moderate. Once you climb above 1,200 m, you'll be greeted with fresh mountain air and temperatures around 13 °C in the summer months.

Currency

Currently the Kuna is their currency, but they anticipate joining in with the Euro. You can exchange money at any of the country's banks, Bureau de change, post offices and at almost all travel agents, hotels and campsites. Most establishments and ATMs will also accept credit cards such as Visa, MasterCard etc.

Travel Documents

Your trip to Croatia doesn't mean visa headaches either. In most cases, the only form of ID required is a valid passport. And if you're an EU citizen, you can also use your national ID card. Croatian customs regulations are almost entirely in harmony with EU standards.
